

## Health Occupations

### *What is the Health Occupations Summer Camp?*

The Camp is a one-week experience at Saint Elizabeth Regional Medical Center and other health care providers in the Lincoln community exploring multiple areas within the hospital.

During the week, students will be working closely with doctors, nurses, and other health professionals. Areas may include anesthesia, nursing, lab, radiology, emergency room, cardiology and others. Students will be expected to attend the entire camp, act professionally and keep a daily journal. Students will need to provide their own transportation to location sites which may vary daily.

### CAMP GRADUATION

The health professionals and students will conclude the camp with a celebration of the week's activities on Friday, June 11 at 3 pm.
